THE DEAD KENTUCKIAN

ARRANGEMENTS COMPLETED FOR SENATOR BECK'S FUNERAL.

The Palibearers Selected and Commit tees of Both Houses Appointed-Meeting of His Colleagues...The Remains to Lie in State,

The Limited New York Express which pulled into the Baltimore and Potomac depot a few minutes before 4 o'clock Saturday afternoon had among its passengers Senator James B. Beck of Kentucky and his daughter, Mrs. Goodloe, wife of the pay director of the Marine Corps. Upon alighting from the cars the Senator and his daughter proceeded to the iron gate separating the platform from the main building, where they met Rogers Clay, the Sonator's private secretary. The latter asked Mr. Beck about his health, and received a cheering reply. The trio tien commenced a conversation, when suddenly Senator Beck threw up one of his hands to his forehead and said:

"How dizzy I feel. I never felt this way before."
These were the last words he ever these were the last words he ever uttered. His eyes closed, his head bent downward and he staggered forward into the arms of his friends. The ashy hue of death settled on his face and he office, where it was found that life was

already extinct. In a short while the office was crowded with Senators and Representatives, who, after hearing the news, had hurried from the Capitol. After the body had lain for an hour in the stationmaster's room it was moved to the residence of Congressman Breckinridge, No. 219 East Capitol street. Physicians, who have been attending the Senator, say that death was due to heart paraly-sis. Saturday evening the body was embalmed and yesterday it was placed n the casket.

The Kentucky delegation met in Senator Beck's old committee room yesterday afternoon to take action on the matter. Senator Blackburn pre-sided. The only absentee was Repre-sentatve Finley. After a consultation it was decided that ex-Speaker Carlisle should be delegated to arrange with Speaker Reed for the introduction of the resolution in the House.

Many telegrams of condolence have been received by the family. Governor Buckner of Kentucky telegraphed: "In communicating to Mrs. Goodloe my sorrow at the death of my friend, her illustrious father, I express the senti-ments of the great commonwealth which her father represented so ably in

the public councils."

The funeral in Lexington will be in the Presbyterian Church and will be conducted by the Rev. W. A. Bartlett.

Viewing the Remains,

All morning a constant throng of visitors has been passing in and out of the house of Representative Breckinridge, where lies all that was mortal of Senator James Burnie Beck. The corpse is encased in an elegant black-covered casket. Two Capitol policeman, stern and silent, formed a guard of honor. The casket is covered with rare and

beautiful floral offerings. One of these was sent by a Kentucky lady, Miss Laura Lee Cox. Another is from Senator Beck's old friend, Captair-W. R. Smith, Superintendent of the Botanical Gardens. PENCIL-PUSHERS' TRIP.

ENJOYABLE VISIT OF THE CORRE-SPONDENTS TO AUGUSTA

Public Entertainments and Private Receptions....Genuine Southern Hos. pitality-The Resolutions Adopted.

The largest representation of Washington correspondents which has left the city for a pleasure trip in many years, if not ever before, visited Augusta, Ga., as the guests of that city on Friday last. As travelers the members of the party were guests of the Pledmont Air Line, which was represented by that genial and cultured host, Colonel James L. Taylor, general passenger agent. Two very handsome sleepers, stocked with every delicacy of the season, made the journey to and from Augusta one long to be remembered. Arriving at their destination the excursionists were most heartily welcomed by a committee composed of twenty gentlemen, Mr. Z. W. Carwile, president of the Cot-ton Exchange, chairman. The constant attention and courtesy of the committee attention and courtesy of the committee throughout the stay of the correspon-dents in their city, made every one feel at home. Besides the public entertain-ments arranged for the visitors there were a number of private receptions given, which proved to those who had never before experienced that Southern hospitality could not well be exag-gerated. The homes of Colonel and Mrs. Thomas G. Barrett and Mr. and Mrs. T. P. Branch—among the most luxurious in the city—were thrown open to the guests, the occasion at the first name being a very elaborate "punch" and the other a most magnificently arranged open-air Mikado party. In both instances the eite of the city welcomed to Georgia the Washington representatives of every, leading paper throughout the country, who could be spared from the Capital without risk of neglecting his business.

The time in Augusta was principally devoted to studying the commercial advantages of the city, the details of which were surprising to those of the party who had not previously visited Georgia. The visits to the Hotel Bon Air, Augusta's winter resort, and the United States Arsenal were greatly enjoyed, The great social entertainment occurred Saturday, when an old fashioned barbecue was given at the Locks, several miles from the city, at a point where the Savannah River is diverted into the Augusta Canal—the finest stream and most bountiful hydraulic water supply of the kind in the South. The barbecue is to Georgia what the clam-bake is to Rhode Island, and offers every opportunity to the visitor to test the quality of the food products of the neighborhood in which it may be given. The feast, in spite of a drenching rain which delayed the roasting of the mutton and pork (and at tables through lack of time deprived many of the guests of an opportunity to

formally express their appreciation of the entertainment) was a great success. The several hours spent in conversation prior to partaking of the "cue," were most interesting to the strangers, and, to many, very instructive on topical subjects, the most important of which from a national point of view probably being that of the race questi If the relations which exist between the white and negro races of Augusta may be taken as an indication it would

appear to an unbiased mind that the negro of Georgia is treated with every consideration and respect. He is apparently thrifty and contented, and as a ule exhibits more genuine happi than is found among his brethren of the North. Many instances might be cited where negro men and women who have become thoroughly incapacitated for work have been taken from one genera tion by another, and are now living on pensions, being allowed to do about as they please. The negroes of the city contributed materially to the entertain-ment of Augusta's guests, the hackmen (all colored) placing their conveniences at the free disposal of the visiting corspondents.

The party left Augusta on the return trip Saturday night, reaching Washing-ton early this morning. On the homeward trip a meeting was held, Major M. P. Handy of the Philadelphia North American being elected chair-man and Mr. P. V. DeGraw of the United Press secretary. A committee on resolutions was appointed as follows: G. Dunnell, New York Times; F. H. Hosford, Detroit Free Press; Perry S. Heath, Indianapolis Journal; Ar-thur W. Dunn, St. Paul Pioneer Press; Charles F. Towle, Boston Traveller; George H. Apperson, St. Louis Globe Democrat; W. J. Lampton, Washing on Evening Star. The committee su mitted a report, which was adopted upanimously. The text of the report

"The Washington correspondents on the excursion from Washington to Augusta, Ga., in appreciation of the pleasure and benefit they have derived rom the trip, unite in the following

"To the committees in charge of the entertainment of the visitors, the members of which devoted themselves en-tirely to the duties of making their guests acquainted with the importan commercial interests and projects of the city, and to the Commercial Club which contributed greatly to heighten the enjoyment of the visit, the thanks of the correspondents are returned in the same cordial spirit in which the at-tentions were extended.
